

## Vote Early Day Resource Guide

Use our GW Votes-approved resource guide to prepare yourself to vote

### [TurboVote](#)

TurboVote makes sure students always know when elections are happening and have the information they need to vote with confidence. GW students can sign up to receive election reminders, get registered to vote and apply for their absentee ballot. Check out our [TurboVote 101](#) videos on YouTube if you need any help with your account or registration.

### [Election Calendar](#)

Know when your next election comes up so you can plan ahead with this vote.org resource.

### [Rock the Vote Map](#)

This map allows you to see the restrictions in your state and where your state falls on the leader, slacker, blocker scale.

### [Vote 411 Ballot Tool](#)

Get an early look at your ballot to see what you are voting for, who the candidates are, and their information. This tool is helpful because you can do a side-by-side comparison of candidates running for each office and learn about when your next local election is coming up.

### [Get Your Absentee Ballot](#)

Vote.org has created this Absentee Ballot tool, broken down by state, to help you find when the requests for your absentee ballot requests are due and when the absentee ballot itself is due.

### [State by State Student Voter Guides](#)

The Campus Vote Project provides students with a state specific voter guide so that you can understand how to prepare for when you go to the voting booths. Since voter laws vary state by state, this resource will allow you to understand what you need to be prepared to vote.

### [Early Voting Guide](#)

So you're registered, you know who you're voting for and, if there is legislation on your ballot, you know what propositions you want or don't want passed. Learn how to vote early to avoid any issues with election day or the voting booth crowds with this All in to Vote early voting guide.
